

# MASTER FINISH

# MF DRIVE UNITS

MF Drive units provide portable power for a wide range of flexible driven heavy duty concrete vibrators & submersible pumps.

A quick action coupling is fitted using a tooth 44mm dog drive.

Model No: **HD5**

Type: **Drive Unit**

Engine: **GX160 4-Stroke**

Weight: **31kg**

Speed: **3000rpm**

## APPLICATIONS

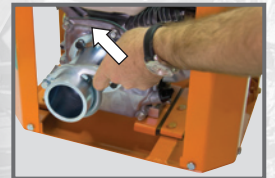

- Submersible Pumps
- Concrete Vibrators

## Features:

- New improved coupling design
- External coupling spring to allow easy operation and maintenance
- New engine mounting for reduced vibration
- Compact design allows easier handling
- Roll resistant design
- Made in Australia

AUSTRALIAN MADE AND OWNED

Quick Connection

Anti-Vibe Engine Mount

POWERED by **HONDA**  
Advanced 4 Stroke Technology

Model No: **K1620**

Type: **Spring Mount Drive Unit**

Engine: **Honda GX160**

Weight: **30kg**

Speed: **3000rpm**

## APPLICATIONS

- All Submersible Pumps
- All Heavy Duty Concrete Vibrators

## Features:

- Dished steel base for mobility
- Honda GX160 4-stroke Motor
- Spring Mounted engine isolation vibrators

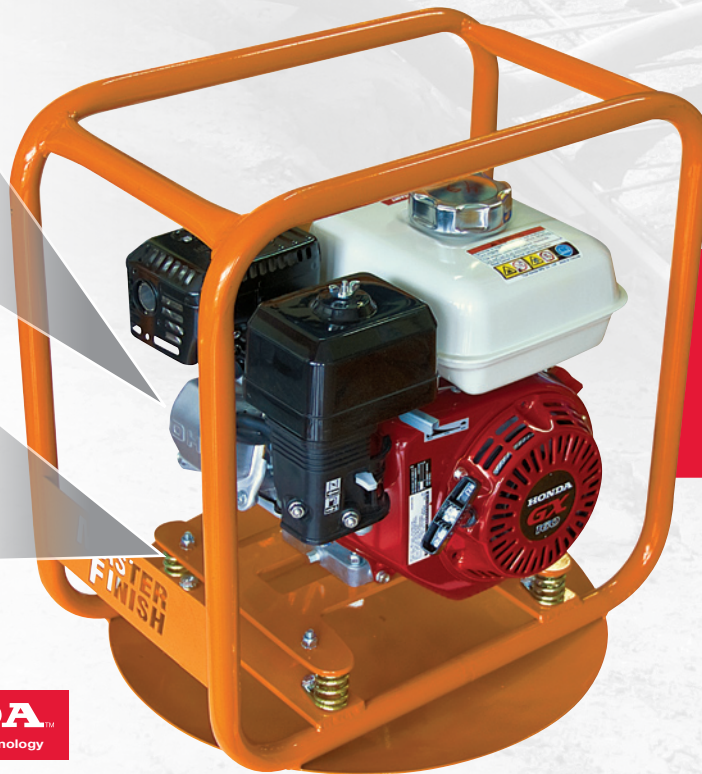

Quick Connection

Anti-Vibe Engine Mount
